Dear Students

I believe education is the most important tool you can receive, that can bring you most success in society today. Education lessens the challenges you face in life. The more knowledge you gain the more opportunities will open up to achieve better possibilities for your personal growth. Therefore, we must gain as much knowledge as we can and use that for the best of our society.

Parents, I want to express my heartfelt gratitude for entrusting us with the education and care of your precious ones. Let us work together as a close-knit community to support each other and ensure the success and happiness of every pre-primary student.

Warm Regards

Akhilesh Chandra Chaturvedi
Principal

Dear Students,

I extend a warm welcome to each one of you and your families.

Our school is a place of joy, exploration, and learning, and I am thrilled to see all the bright smiles and eager faces in our pre-primary classrooms. Together, we will embark on exciting adventures, discover new things, and create lasting memories. Our teachers are dedicated to nurturing your curiosity, creativity, and talents. So, let your imagination soar and make the most of every learning opportunity that comes your way.

With warm regards,

Vinod Papreja
Headmaster

Dear Parents

Learning is a wonderful journey filled with fun and discovery. We believe that children must be taught how to think, not what to think. Our school provides an inclusive environment where students are encouraged to put their best foot forward to achieve academic, sporting and social excellence. Students are provided with platforms in the form of various inter class and inter school competitions where not only the inborn talents of the child is polished to shine but also builds confidence and help enhance their personality. Let us continue to make our children explorers and learners by helping them to adopt the mindset that will hold them in good stead of life. Let us bring positive thoughts to their minds and change the world.
